

Phoenix **Thermal** Supply

Cartridge Lead Wire Options

PTSHEAT Cartridge Heaters can be terminated with several styles of wire.

Type of Lead	Max Temp	Comments
Duraflex	550°C	Highest temperature rating, excellent, durable, user friendly. This is our standard lead wire.
MGT	450°C	Good High Temperature Wire
Ultralead	450°C	Excellent, durable wire, good for high temperature applications.
Teflon	250°C	Good for areas with moisture near leads. Good for abrasion resistance and small diameter for tight spaces.
Silicone Rubber	200°C	Flexible. Good for moisture resistance.
Braided Silicone Rubber	200°C	Inexpensive Wire. Good for non-abrasive applications.
SJO Cord	90°C	Rubber jacket, resistant to oil and moisture. For use on 3/8" diameter and larger.
