

Phoenix **Thermal** Supply

High Temperature Butt Connectors

Non-insulated Brazed Barrel Butt Connectors

High temperature butt connectors are terminals that mate, connect, or terminate a single wire. High temperature butt connectors are ideal for use in high temperature applications like motors, ovens or other applications where terminals can melt.

This series is ideal for use in high temperature applications like motors, ovens or other applications where terminals can melt.

Constructed of steel plated nickel.

Rated for continuous operating temperature of 482° C (900° F), intermittent rating of 649° C (1200° F).

Wire Size	Part Number
#22-18	BS2218
#16-14	BS1614
#12-10	BS1210

Other sizes available. Please contact one of our sales engineers for additional sizes and pricing.

Standard packaging is in baggies of 100pcs.
