

Square Cartridge Heater Fittings

Tab Stops

Tab Stops are ideal for preventing heaters from sliding too far into the hole.

Square Cartridge Heater Other Options

Distributed Wattage

- Distributed wattage heaters are often used in platens and sealing bars. Wattage is usually increased on the ends of the heater to compensate for end losses and maintain a constant temperature along the heated product.
- Specify desired lengths in inches and wattages in percentage.

Lead Wire

Wire type	Maximum Recommended Temperature	Comments
Duraflex	550°C	Highest temperature rating, excellent, durable, user friendly. This is our standard lead wire.
MGT	450°C	Good high temperature wire.
Ultralead	450°C	Excellent, durable wire, good for high temperature applications.
Teflon	250°C	Good for areas where a small diameter wire is needed.
Silicone Rubber	200°C	Good moisture resistance
Braided Silicone Rubber	200°C	Inexpensive wire, good for non-abrasive applications.
SJO Cord	90°C	Rubber jacket, resistant to oil and moisture. For use on 3/8" diameter and larger.
